

AVOID PAY DELAYS WITH DIRECT DEPOSIT

*The safe and easy way to get paid during
COVID-19 or any time*

SAFETY AND SECURITY

There is more security and control with direct deposit than with cashing a check. No lost, stolen, or misplaced checks, and during a health crisis, direct deposit is the best solution for contact-less delivery.

QUICKER ACCESS TO YOUR MONEY

Get timely access to your pay without having to pick up a paper check in person or wait for it to be delivered. And you'll save time by not visiting the bank or ATM.

BETTER MONEY MANAGEMENT

Wages can be deposited to a single account or split between multiple accounts to help with savings goals. Benefit payments, pension payments, and investment income can all be paid via direct deposit.

RELIABILITY

Avoid pandemic-related delivery delays, and get access to funds earlier than with paper checks. Your paycheck is on time every time and accessible when you need it.
