

A better employee experience, **by design.**

In today's mobile-first world, **apps and software need to make work easier** for employees. But many struggle with disjointed systems that don't provide a great user experience.

Welcome to iSolved's personalized user experience, a consumer-grade app that exceeds employees' usability expectations and helps you retain talent. This modern experience is user-friendly, intuitive, and performance-ready on any device.

Employees and managers get instant access to the tools they need, from HR to payroll, talent and performance to time tracking. It's all **built into one seamless technology**. The modern user interface empowers your employees to control their information from anywhere, on any device.

What's included in the personalized user interface?

- **Year-end forms**, available at your employees' fingertips
- **Pay history** to view earnings at a glance
- Full **paycheck details** and an archive
- Modern time cards with **simplified tracking**
- Filterable **calendar** with access to schedules, absences, and an hourly summary
- **Time off** balances and requests
- Emergency **contacts**, beneficiaries, and dependents
- Federal **reporting** data
- A **customized experience** at every login

Deliver a streamlined experience for your workforce with iSolved's personalized and modern user experience, designed with needs of today's employees in mind. **Futureproof your business and transform the employee experience for a better today and tomorrow** with a comprehensive, employee-focused platform.
