

Our NEW isolved release goes live:

June 7, 2024

Release v10.10 has some exciting new additions! We are working hard to provide the best tools for you and your team. Check out the [Feature Release Summary Video](#) available as of June 6, 2024!

In this release:

- Client Contacts by Legal/Paygroup
- Velocity Firmware Update

Payroll

Client Contacts by Legal/Pay Group

We hope you are as excited about this as we are! Clients have asked for a way to assign a client contact type to specific Pay Groups or Legal Companies. This is so the Contact receives payroll notifications for only certain Pay Groups or can be assigned as Contact for only certain Companies.

Here are some of the changes we wanted you to know with this release:

- We will be scripting the existing Contacts (with no Client users) to the new table so the functionality will remain the same for these Contacts. If these Contacts should be limited to Legal Companies or Pay Groups, please contact Support for assistance in making those changes after the release on 6/7/2024
- We will be scripting Pay Group Access from the existing Client Users to the new table so the functionality will remain the same for those Contacts.
- Notifications will now be sent based on the Contact. Pay Group Access for Client Users will only be used for Pay Groups the user has access to.

Client Users isolved University Help

+ Add New - Expand All Groups ^ Collapse All Groups ↻ Clear Grouping/Filters

Hardware

Velocity Firmware Update

On May 24th, we released an optional firmware update to our Velocity timeclocks (v3.1S) that will restrict any employee who is missing an accepted consent form from using their finger template to punch in or out until their manual consent is collected and updated on their employee record in isolved.

In mid-June, the firmware update will be forced and pushed to all Velocity clocks.

To prepare for this upcoming change, you may utilize the “Employee Consent Export” report to identify any employees with active templates who are missing a consent, which indicates “pending” on the report.

Below are some resources as a reminder of the manual consent process:

- [BIPA - Frequently Asked Questions](#)
- [Manual Consent Form \(Velocity and IQ Clocks\)](#)

Please contact Support if you have any questions.
