

# Our NEW isolved release goes live:

October 4, 2024

Release v10.17 has some exciting new additions! We are working hard to provide the best tools for you and your team.

## In this release:

- **Payroll/Service Bureau: Garnishment Past Due**
- **Share & Perform: Block Edits on Assigned Reviews and Templates**
- **Applicant Tracking System: Cronofy Calendar Scheduling Enhancements**
- **Screen Updates**

## Payroll/Service Bureau

### Garnishment Past Due Amount

On the Employee-level of Garnishments, we are going to be adding a Past Due Amount under the Garnishment Calculation section that will allow users to collect the past due amounts as part of payroll. Once an amount is entered, the system will automatically include it into the total about due. This feature specifically applies to Child Support garnishments.

## Share & Perform

### Block Edits on Assigned Reviews and Templates

For administrators who can edit review cycles, there is a new popup once a Cycle and Template are assigned to employees. Users will be able to view the settings used to set up the cycle but will not be able to make changes. Cycles without any assignments will be able to be edited as usual. This is already available in production per Share and Perform release cycle.

## Applicant Tracking System

### Cronofy Calendar Scheduling Enhancements

Applicant Tracking Pro is introducing updates to give you more flexibility and control over your schedule:

- More interview slot options
- Minimum notice for booking
- Time buffer before interviews
- Time buffer after interviews

For more information, look out for the Applicant Tracking Pro release notes coming soon! The release notes will also include a user guide detailing the updates above.

## Platform

### Screen Updates

Over the next few months, you will see that we are refreshing several screens, moving them to a more modern look using the new grid style that you have already seen on other newer screens. The overall functionality stays the same with some differences noted below.

This is an example of the new screen, where you can sort, filter, group, and view all pieces of information:

Prior Employment isolved University
