isolved™

Our NEW isolved release goes live:

December 20, 2024

Release v10.21 has some exciting new additions! We are working hard to provide the best tools for you and your team.

Payroll

In this release:

- **Payroll:** Tax Rate & Calculations Updates, Tax Form Updates
- **Adaptive Employee Experience:** Deep Linking
- **Learn & Grow:** System Status Page Update
- **Applicant Tracking System:** ATS Updates

Tax Rate & Calculation Updates

With this release, there were several state and local rate changes. Here are a couple we would like to call out:

- New Delaware Paid Leave (PFML) taxes

- New Maine Paid Leave (PFML) taxes

Tax Form Updates

Here is the list of changed forms:

U.S. Form Changes
District of Columbia: D-4 Fillable form **Missouri:** MO W-4 updated **South Carolina:** SC W-4 updated

Adaptive Employee Experience

Deep Linking

isolved™

We are excited to announce the release of Deep Linking in the Adaptive Setup page, providing administrators with a streamlined way to access functionality in the Classic product while working in Adaptive. This feature introduces a temporary solution to enhance your workflow as we work toward embedding all linked functionality directly within the Adaptive experience.

What's New?

- **New Options in Adaptive Setup:**
  Administrators will notice new functionality options appearing on the Adaptive Setup page. These options are labeled with a clear Deep Link indicator to distinguish them from native Adaptive features. **Note:** a corresponding role does not need to be set up on the **Self-Service Roles** screen.

- **How Deep Links Work:**

  When a deep link is clicked in Adaptive, a new browser tab will open, directing the user to the corresponding feature or functionality in the Classic product. These links provide immediate access to Classic functionality while we continue to build these capabilities directly into Adaptive.

Deep Links Added in This Release

The following links have been added to the Adaptive Setup page as deep links to Classic:

| Card Name	Screen(s)
Benefits	Qualifying Life Events, Updates
Personal	COBRA Documents, Training & Development (including Awards, Certifications, Corrective Actions, Education, Skills, Training),
Time & Attendance	Team Calendar, Coverage Requests, My Dashboard, Time Card – Spreadsheet view
Manage	Advanced Scheduling, Employee Analytics, Employees > Absences, Employees > Employer, Employees > HR, Employees > Position, Employees > Training & Development, My Reports, Tasks > Manage, Tasks > Reports

Deep Linking Setup:

Adaptive Setup

Setup | Other Options | Employee Documents | Report Access

Edit | Refresh | Save | Cancel

Card Name	Enabled	Read	Full	Terminated
Time Card			☑	
Time Card - Spreadsheet View			☑	
Time Off			☑	
> Manage	☑			
Manager				
Advanced Scheduling ⓘ			☑	
Calendar	Platform linking from AEE		☑	
Employee Analytics ⓘ			☑	
Employees			☑	
Employees > Absences ⓘ			☑	

Deep Linking Confirmation:

Confirm navigation ✕

This action will navigate you away from your current experience.

Learn & Grow

System Status Page Update

The legacy system status page has been updated to display an embedded view of the new System Status Page. The direct System Status page link that has been provided in the past is still functional; this is just another way to view and navigate to this page.

This page is located **at Library > System Status** in isolved People Heroes University. This is now available for certain users and will be available to Client Users with the release on 12/20.

Systems Status on Homepage:

Applicant Tracking System

ATS Updates

For those who use Applicant Tracking, we have a whole lot of updates that you can look forward to! The updates include:

- Product Updates Pages
- Remove Non-Employee Job Sharers from Internal Jobs Email
- Retiring Legacy Employee Referral Portal Reminder
- Tailored Hiring Workflows
- UX Color and Typography
- LinkedIn Apply Connect

Look out for an email from the ATS team to learn more about each of these updates!
